MNEMOCIDE BIOGRAPHY

Mnemocide was established in 2017 by five metalheads from Basel, Switzerland. The quintet shapes its own vision of pounding, groovy death metal.

In addition to solo gigs, the band also took the opportunities to perform live at several festivals such as the BScene Basel, Freak Out Festival (Dust Bolt, Total Annihilation) Headbanger's Ball (Debauchery, Sear Bliss, Requiem), Meh Suff Winter Festival (Paradise Lost, Dismember, Grave) attracting interested audiences with their intense and energetic performance.

After the EP „Debris“ (2018), Mnemocide are now releasing their first full length album titled „Feeding The Vultures“, which was recorded near Freiburg (DE) at the Iguana Studios under the experienced direction of producer Christoph Brandes (The Spirit, Unlight, Thron, Necrophagist, Finsterforst et al.) His massive and contemporary production lets the songs shine in their best light.

With this album and plenty of motivation, Mnemocide strive to start their triumphal march onto the world's stages!
